

SMP Community and Stakeholder Consultation Database

Government Agencies

Stakeholder / Company	Name	Position	Address	Consultation Method(s)
Department of Natural Resources	Fergus Hancock		Hunter Region P.O. Box 2213 DANGER NSW 2309	30/4/2007-Draft BBRA and accompanying letter
Department of Natural Resources	Mr Mark Mignanelli	Manager Major Projects and Mining Assessment	PO Box 2213 Dangar NSW 2309	30/4/2007-Draft BBRA and accompanying letter
Dept Environment and Conservation - Environment Protection and Regulation Division	Phillip Purcell	Archaeologist	48-52 Wingewarra Street DUBBO NSW 2830	30/4/2007-Draft BBRA and accompanying letter
Environment Protection and Regulation Division Department of Environment and Conservation	Mr Richard Whyte	Regional Manager Central West	PO Box 1388 BATHURST NSW 2795	30/4/2007-Draft BBRA and accompanying letter
Department of Planning	Mr Howard Reed	A/Manager, Mining & Extractive Industries, Major Development Assessments	GPO Box 39 SYDNEY NSW 2001	30/4/2007-Draft BBRA and accompanying letter
Environmental Sustainability Branch NSW Department of Primary Industries – Mineral Resources	Ms Kaye Oxley	Acting Regional Environmental Manager	Locked Bag 21 Orange NSW 2800	30/4/2007-Draft BBRA and accompanying letter
NSW Department of Primary Industries – Mineral Resources	Mr Gang Li	Principle Subsidence Engineer	PO Box 344 Hunter Region Mail Centre NSW 2310	30/4/2007-Draft BBRA and accompanying letter
Mid Western Regional Council	Warwick Bennett	The General Manager	GPO Box 156 MUDGEE NSW 2850	30/4/2007-Draft BBRA and accompanying letter
Mine Subsidence Board	Mr Michael Clark	Secretary & Manager	PO Box 488G NEWCASTLE NSW 2300	30/4/2007-Draft BBRA and accompanying letter
NSW Department of Primary Industries – Mineral Resources	Mr Gang Li	Principle Subsidence Engineer	PO Box 344 Hunter Region Mail Centre NSW 2310	15/8/07-Presentation of proposed SMP application to PSE detailing investigations undertaken, risk profile and proposed future works including near-goaf strata and hydrology network and assessment. PSE stated that this work would be something that every U/G mine should be undertaking and placed UCML in very good position moving forward.
NSW Department of Primary Industries – Mineral Resources	Michael Lloyd	Subsidence Executive Officer	PO Box 344 Hunter Region Mail Centre NSW 2311	7/12/07-PE contacted SEO to discuss submission timeframes for the SMP with the upcoming Christmas break and concerns from UCML's CCC. SEO advised that nominated exhibition timeframe was indicative and that submissions would be accepted outside the exhibition period from DPI. PE enquired whether DPI would prefer application after Christmas. SEO indicated that it would be preferable, however not essential. PE indicated that he would advise of any further changes and advise prior to application being made.

Stakeholder / Company	Name	Position	Address	Consultation Method(s)
Private Residents				
	Bill Hensley	Adjoining Landowner	63750463 Cliffdale, Gulgong, 2852	PE and Nathan Lane of UCML discussed with Bill the potential for monitoring his bore. Bill was positive about monitoring and allow UCML access. Info is to be supplied on bore following monitoring and BH to be advised of monitoring date prior to ensure that he can discuss with hydrologist. BH supplied data on Fish Fossil Reserve and previous studies undertaken on reserve.
	Bill Hensley	Adjoining Landowner		PT and CD from Coffey visited bore GW065222 in Aug 07. Bill was happy the bore performance over the past few years. He noted the water level had dropped around 1 to 1.5m over the recent drought. The bore supplies running water for the house through pip
	John Williams	Adjoining Landowner	Old Bobadeen #: 63761018 Birraway #: 68441248 Old Bobadeen, Turill, NSW	PE Contact John on 21/6/07 requesting GW monitoring. JW indicated that happy to have monitoring occur and very relieved to see UCML undertaking groundwater monitoring and reviewing as it was a concern of his. PE indicated that Hydrologist would contact him prior to undertaking monitoring in order that he may speak to them about groundwater in the area.
	Andrew Williams (son of John Williams)	Adjoining Landowner		Andrew occupies John's property. He only uses one of the bores on his property (GW078317 in front of the house) however currently inoperable. This bore was visited in Aug 07 by PT and CD from Coffey.
	Mick Etheridge	Adjoining Landowner	2460 Blue Springs Rd Gulgong 2852 0428459955 or 63750414	PE contacted on 21/6/07 requesting access to licensed bore for monitoring purposes. ME indicated that he is willing to have bore monitored, however requested to be contacted A/H prior to monitoring
	Mick Etheridge	Adjoining Landowner	2460 Blue Springs Rd Gulgong 2852	Mick was contacted and said he was happy for his bore to be visited. PT and CD from Coffey visited bore GW801625 in Aug 2007.
	Merv & Vannetta Cundy	Adjoining Landowner	"Forest Lodge" Lot48/ Ulan Rd Turill 2850	Visited M+V on the 21/6/07 to discuss ability to test licensed bore. V indicated that they had previously denied another organisation, therefore it was only right that UCML were not allowed access. V+M indicated that they both were happy with the water make from the bore and that it had dropped recently from 20L/min to 15L/min, however put this down to the drought rather than an impact from mining. PE explained current monitoring results from RGM Network.
	Julia Imrie	Adjoining Landowner	Goulburn River Stone Cottages Cassillis Road Mudgee NSW 2850 (2) 6373-4650 or 0427637346	Stakeholder sits on the Ulan CCC and was advised of UCML's intention to submit and application to the DPI for W2+W3 longwall blocks. As part of application, CCC were advised that a bore study was to be undertaken of licensed bores within 9km of the proposed LW panels. PE contacted JI on the 27/7/07 to request access to licensed bore for testing. JI indicated that happy to have Coffey's monitor bore however would request a copy of the results and maintain an opportunity to discuss hydrology with Coffey representative. Agreed that visit by Coffey was a good opportunity to update on RGMN and impacts on monitoring data from recent rainfall. Paul Tammetta to contact prior to accessing bore.

Stakeholder / Company	Name	Position	Address	Consultation Method(s)
	Julia Imrie	Adjoining Landowner	Goulburn River Stone Cottages Cassillis Road Mudgee NSW 2850 (2) 6373-4650 or 0427637347	PT and CD from Coffey visited bore GW800279 in Aug 2007. Julia asked about impacts on Triassic sandstone due to mining and PT discussed broad impacts in a qualitative way, using data from 2006 AEMR. Julia said she was unhappy with the Moolarben project. She was happy at present with bore performance.
	R & F Rouse	Adjoining Landowner	11 Wiradjuri Cres Mudgee NSW 2850 (02) 6372 1129	UCML maintains an access agreement with the Rouse's for regional groundwater monitoring bore. On 27/7/07 PE contacted Mrs Rouse relating to accessing groundwater bore for the purposes of SMP application for proposed panel W2+W3 (Richard awd out for an hour and PE's mobile was left). Mrs R advised that she maintained no problem UCML monitoring bores however contact wouldbe required to be made to Lou Armstrong who leases the property. Contact details for LA were obtained. Mrs R also indicated to be careful when accessing land given recent rainfall and not drive vehicle over land to get to bores as you would get bogged. PE to contact LA
	Lou Armstrong	Adjoining Landowner	Rouse Property 02 63758263	Lou has three bores which were visited in Aug 07 by PT and CD from Coffey. Two of these bores are operational. He had no concerns at present regarding mining at Ulan.
	Larry Knott	Leases land from UCML	Land with GW034454	Bore GW034454 was visited by PT and CD in Aug 07. Larry Knott uses this bore, understood to be for stock. He was not able to meet PT and CD but was happy for the bore to be visited. He does not want anything done to the bore.
	Ted Elward	Adjoining Landowner		Ted's bores were visited in Aug 07 by PT and CD from Coffey. The southern bore had dried up (was not being used) but the north bore was still OK.
	Bob Kearins	Lease holder with UCML		Bob's bore was visited in Aug 07 by PT and CD from Coffey. He was happy with its performance and with being able to contact UCML for help when bores lose performance.
	John Rouse	Adjoining Landowner		John has two bores which were visited in Aug 07 by PT and CD from Coffey. One of these bores is no longer used due to insufficient water supply and a new one was drilled about 1km to the northwest to provide a greater yield.
	Searle Page	Adjoining Landowner		Searle has bore GW048604 which is used for domestic water supply. He did not have any concerns about mining at Ulan at present, but was interested in Future activities. He advised the presence of at least three other private bores off Wongaroo Road

Stakeholder / Company	Name	Position	Address	Consultation Method(s)
Community Groups				
	Julia Imrie, Bev Smiles, Scott Lillis, Craig Bagnell, Jamie Lees, Phil English, Val Istomin (part)	Community Consultative Committee	Meetings held at UCML	1/3/07-provided an overview of the proposed SMP application area within ML 1468. Water management and review of submission highlighted as significant concerns by CCC (further details contained in CCC Minutes)
	Julia Imrie, Gary Bruce (MWRC), Esme Martin (MWRC), Nigel Charnock (XCN), Phil English, Jamie Lees, Nathan Lane	Community Consultative Committee	Meetings held at UCML	13/6/07-overviewof BBRA undertaken and risks identified. Provided preliminary results from surveys undertaken in proposed application area. Questions raised relating to the height of cracking within strata from SCT.
	Julia Imrie, Bev Smiles, Gail Ratcliffe, Phil English, Jamie Lees, Nathan Lane	Community Consultative Committee	Meetings held at UCML	19/9/07-UCML provided overview of mining processes and mining related issues and detailed presentation in groundwater modelling and aquifer sources. Question were raised relating to the consultation process and groundwater related issues. Further details contained in CCC Minutes
	Julia Imrie, Bev Smiles, Gary Bruce(MWRC), Esme Martin (MWRC), (MWRC - Chair), Julia Imrie (CCC/ HRCMA), Robert Hodge (MWRC), English, Jamie Lees, Nathan Lane, Cheryl Holden, Murray Wood,	Community Consultative Committee	Meetings held at UCML	3/12/07-UCML updated CCC on likely groundwater makes at project status. CCC advised that submission timeframe beofre Christmas. CCC indicated that submission timeframe was not optimal for public exhibition and reinforced desire to obtain a personal copy on CD for review.
Private and Public Infrastructure Owners				
Telstra Network Integrity Services	Steven Lynch	NIS Field Consultant		2/10/07 - Phone Call and Emails with SL to finalise updating of management plans with respect to monitoring requirements for active line section under W1 and W2. "Loss readings on the line required before and after mining. Telstra to be contacted when mining within W1 and W2 in within 100 lineal metres of the buried Telstra cable for the pre-mining monitoring".
Telstra Network Integrity Services	Steven Lynch, Raymond	NIS Field Consultant/Team Leader		21/6/2007 - Email/Letter to SL and RM outlining project, supporting documentation and invitation to consultation.
Telstra Country Wide	William Copelin	Customer Manager		21/6/2007 - Email/Letter to WC outlining project, supporting documentation and invitation to consultation.
Telstra Network Integrity Services	Ray Munt	Team Leader		22/7/2007 - Email advising Telstra NIS that 2007 Dial Before You Dig records indicated that Telstra hadnt updated their plans since findings of 2005 SMP with regard to location of both active and inactive sections of buried copper line.
UCML	Jamie Lees	Environmental Officer		12/7/2007 - Email advising JL that Telstra NIS representative Steven Lynch will be conducting site visit and inspect SMP area on 13/7/2007
Telstra Network Integrity Services	Steven Lynch	NIS Field Consultant		23/7/07 - Email between GSSE and SL discussing required changes and updating of UCML management plans with respect to Telstra lines.
Telstra Network Integrity Services	Steven Lynch	NIS Field Consultant		26/9/2007 - Email to SL requesting discussion of project at Ulan Coal Mine.
Telstra Network Integrity Services	Steven Lynch	NIS Field Consultant		2/10/2007 - Phone call between SL and GSSE regarding finalisation of monitoring requirements for active line

Stakeholder / Company	Name	Position	Address	Consultation Method(s)
UCML	Phil English	Environmental Manager		27/7/2007 - Email from PE to GSSE and Paul Tammetta with attached consultation database
UCML	Phil English	Environmental Manager		27/7/2007- Email from PE to GSSE and Paul Tammetta with attached database of Private Bores Environmental Impact Assessment
Telstra Network Integrity Services				23/4/2007 - Letter from Telstra to GSSE with attached plant location details and plans.
UCML	Wayne Wicks	Projects Enginner		13/7/2007 - Email from UCML to GSSE with regard to fibre cable installed at Bobadeen.
UCML	Phil English	Projects Manager		17/4/2007- Letter to Dial Before You Dig for request of potential services detail within the project study area for UCML. Dial Before You Dig form, plan and letter sent.
UCML	Phil English	Environment Manager		21/11/2007- Email to Telstra (NIS) from UCML providing final draft for approval of management controls developed for Telstra services as to vbe included in the UCML Surface Infrastructure Management Plan
Telstra Network Integrity Services	Steven Lynch	NIS Field Consultant		11/12/2007 - Email from Tesltra NIS to GSSE advising no further changes required/approval of management controls
Telstra Network Integrity Services	Ray Munt	Team Leader		12/12/2007- Phone and email discussions with Telstra NIS Raymond Munt issuing formal approval of proposed management controls for Telstra assets for the SMP as developed with Steve Lynch of Telstra NIS
Telstra Country Wide	Michael Downey	Customer Service and Technical Manager		12/12/2007- Phone and email from GSSE with Michael Downey of Telstra Country Wide to advise of receipt of formal approval from Telstra NIS. Mr Downey advised by phone that this was satisfactory for Telstra Country.
Telstra Country Wide	Michael Downey	Customer Service and Technical Manager		13/12/2007 - Email from Michael Downey to GSSE agreeing that all consultation has taken place and is now complete
